PERSONAL EXPERIENCE

Tuna Technology

Front End Developer

January 2024 - Present

- Design and developed a multi-page user experience into a single page app Using React.js Tailwind CSS
- Implemented reusable React components to improve code maintainability.
- Build and maintain efficient, reusable, and reliable web applications.
- Collaborated with backend teams to integrate RESTful APIs.
- Worked in an Agile environment with daily stand-ups and code reviews.

Darshan Infosys,

Intern / Front End Web Designer

December 2022 - November 2023

- Designed the public website using Html, CSS and JavaScript.
- Develop web applications according to the provided designs.
- Work as a part of a team to develop product features.

PROJECTS

- Dalitonline.com

Built a **responsive news portal** using **HTML, CSS, and JavaScript**, featuring dynamic content display, category filters, and interactive elements. Ensured a **user-friendly** interface and **cross-device compatibility**.

- Agenda – Link: github.com/prabin-bagale/todo-ReactApp

Developed a **responsive and user-friendly to-do application** using **React.js**, Tailwind CSS, JavaScript, HTML enabling users to add, edit, delete, and mark tasks as complete. Utilized **React Hooks** for state management, **local storage** for task persistence, and optimized performance with a **component-based architecture**.

- Pacific Bot - link: github.com/prabin-bagale/Pacific-Bot

Worked on an interactive **chatbot Feature** using **React.js JavaScript, CSS, html** with real-time user interactions and predefined responses. Leveraged **React Hooks** for **state management**, integrated **API handling**, and ensured a **responsive UI** with **local storage** for conversation history.
